Infoblox Migration Services

Gain Infoblox Advantage in Under 4 Months

Migrate your customers' DNS, DHCP and IPAM solutions to Infoblox to unlock the power of the industry's leading DDI and security platform. Transitioning to Infoblox gives customers a competitive edge in performance, security and scalability. Most projects conclude within four months, allowing customers to migrate confidently and gain significant advantages swiftly.

Universal DDI Migration Packages

All Universal DDI Migration packages vary by:

- Defining a number of admin objects
- Configuring a number of UDDI cloud configurations
- Deploying a number of NIOS-X servers, DNS and DHCP objects
- Connecting a number of grids
- Assistance with IPAM, DNS / DHCP, Production go-live for Service activation

Universal DDI Migration Packages Include:

- A kickoff meeting
- Configuring one SSO between Customer network and Infoblox portal
- Verbal Knowledge Transfer sessions on Universal DDI cloud management and/or Universal Asset Insights cloud discovery

Universal DDI Migration Package Comparisons

Package	Term from PO date	NIOS-X instances deployed	Combined IP addresses and Objects Limit	Migration Event Limit
Micro	3 Months	10	5,100	• One (1) Microsoft DNS Forest/NIOS DNS view • Up to ten (10) Microsoft/NIOS DHCP sources
Small	3 Months	20	15,100	• One (1) Microsoft DNS Forest/NIOS DNS view • Up to ten (10) Microsoft/NIOS DHCP sources
Medium	6 Months	40	45,100	• Two (2) Microsoft DNS Forest/ISC/NIOS DNS views • Up to fifteen (15) Microsoft/ISC/NIOS DHCP sources
Large	9 Months	50	100,000	• Three (3) Microsoft DNS Forest/ISC/NIOS DNS views • Up to twenty-five (25) Microsoft/ISC/NIOS DHCP sources

All packages offer:

- Composition of a configuration document, as per Infoblox standard template and, adoption defined as DNS and DHCP are serviced through Universal DDI.

NIOS Migration Packages

Details	Micro	Small	Medium	Large
Migration from Microsoft in scope?	Yes	Yes	Yes	Yes
Migration from ISC in scope?	No	No	Yes	Yes
Number of NIOS Members	4	6	12	20
Number of DNS forests/Views	1	1	2	4
Number of DHCP sources	5	10	15	20
Number of migration events	1	1	2	3
Number of included addons: TD, ADP, DTC, MSMGMT, NI	0	1	2	3
Compose a configuration document	Yes	Yes	Yes	Yes

Micro / Small - a la carte:

- Network Insight 4 hours (limited to a single probe & consolidator + 1 hour PM)
- ADP 8 hours + 2 hours PM
- DTC 4 hours + 1 hour PM
- TD 8 hours + 1 hour PM
- MSMGT 8 hours + 1 hour PM
- Each Additional Go-Live Event 8 hours + 2 hours PM
- Each Additional AD Forest 4 hours + 1 hour PM
- Each Additional DHCP Source 4 hours + 1 hour PM

Medium / Large - a la carte:

- Network Insight 6 hours (limited to a single probe & consolidator + 2 hours PM)
- ADP 12 hours + 3 hours PM
- DTC 4 hours + 1 hour PM
- TD 16 hours + 4 hours PM
- MSMGT 8 hours + 2 hours PM
- Each Additional Go-Live Event 8 hours + 2 hours PM
- Each Additional AD Forest for DNS View 6 hours + 1 hour PM
- Each Additional DHCP Source 6 hours + 1 hour PM

If the customer use case does not match one of these packages, we will compose a custom Statement of Work.

Why Choose Our Professional Services?

- **Expert Guidance:** Our Infoblox specialists will leverage their extensive knowledge to optimise your customer's solution.
- **Proven Methodology:** We employ well-defined and successful project plans to ensure timely completion and value delivery.
- **Risk Mitigation:** Our experience minimises project risks and ensures a smooth migration.
- **Knowledge Transfer:** We prioritise communication and empower your customer's team to confidently manage their Infoblox solution.
